

American Express® International Currency Cards

Comparison of benefits

An American Express International Currency Card is just like a regular American Express Charge Card, except that it deals exclusively in a currency different from the currency of your local market. All charges are converted to and billed in the currency you choose.

These practical Cards are available in **US dollars, euro and British pounds sterling**, giving you access to some of the world's major currencies.

International Currency Cards are not tied to either nationality or country so you can enjoy convenient and discreet access to your US dollars, euro or British pounds virtually wherever you are in the world. You can also expect the same world-class service and many of the benefits as you would with other American Express Cards.
